

Perfect gift for customers, clients, local libraries and area schools.

## CHILDREN'S WELL DRILLING STORYBOOK

Reading Level: Grades 3-6  
Water Well Awareness: K Thru Congress

Written by the  
**AMERICAN GROUND  
WATER TRUST**

This 31 page storybook is a full-color illustrated narrative about two children watching the drilling of a home's water well and the installation of a water pump. In dialog with the well drillers, the children develop an understanding of the process and equipment used to make the well and how water is brought from the ground to the house. A glossary of 28 water well drilling words is included. The 27 illustrations are watercolor and black pen.

*Thank you for giving us the opportunity to give back to our communities and giving us a way to ensure the future of our industry through the lives of young children.*

*Melissa Douglas-Sheffield, Sheffield Wells, Inc., High Springs, FL*

*The book is nicely illustrated and is an informative story on private well construction and ground water for children and adults.*

*Robert Varney, US EPA, Region 1 Administrator*
